RIZAL TECHNOLOGICAL UNIVERSITY – BONI

BS Information Technology

Expected Graduation: 2027

Current: 4th Year Student

General Weighted Average (GWA): 1.50

Mandaluyong City

Present

WORK EXPERIENCE

SAIKOTECH SOLUTIONS (fintech startup)

Full Stack Software Developer

Remote

Feb 2026 – Present

- Developed and maintained business applications that automate and streamline business processes, improving operational efficiency for clients.
- Led the development and successful deployment of two production projects, coordinating implementation from planning through release.
- Built end-to-end features across both the front end and back end using Ruby on Rails and TypeScript, delivering scalable and maintainable solutions.
- Designed and integrated RESTful APIs, implemented database-driven functionality, and optimized application performance.
- Collaborated with cross-functional teams to translate business requirements into reliable, user-friendly software solutions.
- Participated in code reviews, debugging, testing, and continuous improvements to ensure high-quality, production-ready applications.

IOTERA PH

Software Developer (Internship)

Makati City

Feb 2026 – Apr 2026

- Configured, tested, and deployed IoT devices to support client and internal system requirements.
- Collaborated with the development team to integrate software applications with IoT hardware and connected devices.
- Developed and maintained user interface components and RESTful APIs, contributing to the application's functionality and performance.
- Assisted in troubleshooting, testing, and optimizing both software and device integrations to ensure reliable operation.
- Participated in application and IoT device demonstrations at WORLDBEX, presenting solutions and technical capabilities to attendees and potential clients.

FREELANCE

Web Developer

Remote

Jan 2024 – Dec 2025

- Built responsive, user-friendly interfaces using modern web technologies, ensuring compatibility across desktop and mobile devices.
- Collaborated directly with clients to gather requirements, provide technical recommendations, and deliver projects on schedule.
- Developed full-stack features, integrated APIs and databases, and implemented functionality tailored to each client's needs.

PROJECTS

SPENDLYY (Web App)

2025

- Developed a full-stack personal finance web application that helps users track income, expenses, and budgets in one centralized platform.
- Integrated AI-powered features to provide personalized spending insights, budgeting recommendations, and financial guidance.
- Implemented budgeting, expense tracking, and financial analytics to help users manage their money more effectively.
- Technologies: Next.js, TypeScript, Prisma ORM, MongoDB, Tailwind CSS, Better Auth, AI APIs.

ADDITIONAL PROJECTS
